Stripping Tool MW

Abisolieren

Stripping Tool MW
Stripping fine-stranded and solid conductors with PVC insulation from 0.13 mm² to 0.5 mm²

That is particularly
Removes wire insulation cleanly and reliably. You are always perfectly prepared for the next processing step

Small and compact - particularly suitable for use in hard-to-reach places.

These functions make stripping more convenient
Tool is quickly set to your desired stripping length.

Stripper is simple and intuitive to use.

Further advantages offered by our Made in Germany standard
Manufactured from special steel, specially hardened and tempered parts - quality that lasts.

Tool is extremely robust, minimal wear.

Technical Data

Stripping range	0.13 | 0.17 | 0.22 | 0.35 | 0.5 mm² Fine-stranded and solid conductors with PVC insulation
Adjustable stripping length	1,5 to 15,0 mm²
Dimensions (length)	approx. 125 mm
Weight	210 g
