WEZAG

Crimpen

This tool is made for these applications

D-Sub contacts in strip form

That is particularly

Work efficiently. The feed and cutting functions ensure fast and clean processing.

Save time with every crimp. The conductor and insulation are crimped in a single step.

Everything in its right place. The linear crimping motion ensures that the connector wings roll in perfectly.

Position it securely. The insulation stop always keeps the conductor in the correct position.

Assemble components in a production-like environment. You will process connectors directly off the production line.

These functions make crimping more convenient

Tool lies comfortably in the hand thanks to soft handles with anti-slip protection.

Further advantages offered by our Made in Germany standard

Always a compliant crimp - the positive lock ensures this. Can be unlocked in the event of incorrect operation.

Manufactured from special steel, specially hardened and tempered parts - quality that lasts.

No unnecessary play within the individual parts thanks to precise manufacturing, resulting in maximum reliability.

Tool is optimally set at the factory. It is not possible or necessary to adjust the crimping force.

Technical Data

Crimping range	0,14 bis 0,25 mm ² 0,25 bis 0,5 mm ²
Crimp shape	B-Crimp
Dimensions (length x width)	approx. 230 mm x 60 mm
Weight	approx. 685 g
